

## Dupuis Management Area Bird Checklist

This checklist, compiled from eBird reports, covers the portion of the 22,000 acres of DuPuis WMA which is in Martin County. There are 4 entrances to this very large

**Gate #1 - Auto Tour:** Approx. 3 mi. of this 7 mi. dirt road is in Martin County. (The cypress boardwalk is in Palm Beach County.) In Martin County are the 2 areas with breeding Red-Cockaded Woodpeckers. Also seen on the drive are Northern Bobwhite, Wild Turkey, Bachman's Sparrows, Red-headed Woodpeckers, and Northern Flickers.

**Gate#2 – Hiking/Biking:** Approx. 1 mi. from the entrance is the oak hammock at the Governor's House picnic area. This is a good spot for warblers during migration. (This picnic area can also be reached via a dirt road off of the main auto tour road.)

**Gate #3 – Equestrian Center:** This area is where a Barn Owl is usually spotted.

**Gate #5 - Visitor Center:** The short nature trail at the visitor center is a good spot for warblers, vireos, etc. In the winter, a feeder there attracts wintering birds such as Chipping Sparrows and buntings. **Public restrooms open on weekdays.**
